

Presort Error Text Listing

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
D01	Abbreviations	708.1.3 - Rate Level Headings	The USPS qualification report does not consist of the proper abbreviations for the rate level according to the form and content of standardized documentation.
D02	Sortation Levels	708.1.4 - Sortation Level	"The USPS qualification report does not reflect the proper sortation levels (or corresponding abbreviations) according to the DMM. (e.g., 3DGS, MADC, MAAD, etc.)"
D03	Reporting Group Destination	708.1.2c(3) - Format & Content	"The USPS qualification report does not list or report the required elements, depending on mail preparation: group destination for automation/upgradable letter mail (number of pieces) for each carrier route in carrier route trays (First-Class & Standard Mail) including the 5-digit ZIP Code and carrier route and carrier route for pieces in 3-digit carrier route trays; for each 5-digit ZIP Code in 5-digit scheme trays; for each 3-digit ZIP Code prefix in 3-digit scheme trays; for each 3-digit or 3-digit scheme in AADC trays; and for each AADC in mixed AADC trays."
D04	Reporting Bundle Destination	708.1.2c(3) - Format & Content	"The USPS qualification report does not list or report the required elements, depending on mail preparation: bundle level and bundle destination for automation flats, regular non-automation presort mail, and Enhanced Carrier Route Standard Mail OR reports incorrect bundle destination."
D05	Heading- First - Class & Standard Mail	708.1.2a(1) - Format & Content	"The USPS qualification report does not display all the elements within the header of the standardized documentation. The name of the mailer and the mailing, a mailing identification code corresponding to the postage statement, the date, class of mail, and either the DMM standard under which the mail was prepared or the type of rates claimed."
D06	Heading- Periodicals	708.1.2a(2) - Format & Content	"The USPS qualification report does not display all the elements within the header of the standardized documentation. Each publication title and publication number corresponding to the postage statement and entry office, the date, the class of mail, and either the DMM standard under which the mailing was prepared, or the type of rates claimed."
D07	Required Sequence of Information	708.1.2c(4) & 708.1.2d(4) - Format & Content	"The USPS qualification report does not report information either in ZIP Code order and by sortation level or by sortation level and within each sortation level, by ZIP Code."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
D08	Rate Column Quantities	708.1.3 - Format & Content	The USPS qualification report does not report the mailpiece quantities in separate columns for each rate presented in the mailing.
D09	Container Destination	708.1.2c(2) - Format & Content	"The USPS qualification report does not report the proper corresponding ZIP Code for the container (use destination on top line of tray/sack label except that, for 3-digit carrier routes trays, list the individual 5-digit ZIP Codes contained in each tray)."
D10	Running Total	708.1.2c(5) - Format & Content	The USPS qualification report does not include (required column) a running total of pieces mailed that is continuous for each mailing.
D11	Sequential Page Numbers	708.1.2b - Format & Content	The USPS qualification report does not include the required sequential page numbers in the body of the listing.
D12	Periodicals with Firms- copies column	708.1.2c(8) - Format & Content	"Non-automation rate Periodicals with Firms must include a separate "copies" column, displaying the number of copies for each package sortation level and destination. If no Firms are included in the file, this column is optional."
D13	Periodical with Firm-bundle reporting	708.1.2c(8) - Format & Content	"Software lists firm bundles as separate line items under the group destination column, but did not report the required "F" notation. The firm group must be reported before or after all the other pieces for the same presort destination."
D14	Incorrect Reporting of Zone for Periodicals	708.1.2d(6)- Format & Content	The USPS qualification report does not indicate the correct zone assignment or does not display a separate column for reporting the appropriate zone assignment for Periodical mailings. This column must display the applicable zone or destination entry discount abbreviations (listed in P012.3.3-Zone Abbreviations).
D15	Periodicals Zone Summary Report	708.1.7 - Format & Content	"All Periodical mailings must include a summary report of the total number of copies for each zone, including In-County, delivery unit, and SCF zone rates. NOTE: This report is not required if the software generates a facsimile of a USPS postage statement."
D16	Discrepancies between Reports	708.1.2e - Format & Content	The USPS qualification report does not correspond to the information reported on the postage statement for the number of pieces reported or total amount.
D17	Column Discrepancies	708.1.2e - Format & Content	The total of the rate columns of the USPS qualification report does not match the quantity of the running total column.
D18	Incorrect Rate Claimed for Mailpieces	708.1.2c(7)	"Claimed the incorrect postage rates for the mailpieces concerned, including reporting the pieces in the wrong rate column."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
D19	Incorrect Column Headings	708.1.2	Did not follow P012 requirements for the proper headings of columns on the USPS Qualification Report
D20	Non-Compliance with Footnotes	708.2	"Vendor did not follow instructions for the footnote(s) assigned and will not receive that option as a credit on the Vendor's list at this time. Must show proof of option for option to appear on Vendor's list."
D21	Separate Qualification Reports	707.18.2 - Mailings	"Vendor is making multiple mailings but did not prepare separate USPS Qual reports for each mailing OR broke out the qual report to indicate different mailings, but all entry's are the same and should have been prepared on one qual report."
D22	Non-qualified mail	707.18.1	Vendor included mailpieces that are ineligible for the presort and must be prepared as separate mailing at appropriate rates if minimum quantity met - or sent at single piece rates.
D23	Reported Overflow Containers out of Sequence	707.18.4d	Vendor reported overflow containers before reporting full containers. Documentation should reflect the preparation rules and report the full containers to a destination before reporting the overflow containers to the same destination - if overflow is allowed.
D24	Basic Formatting Problems for USPS Qual Report	708.1.1	"Vendor made qual report errors such as... didn't report the column headings on each page of the report, or reported container level for each line item instead of once for each container."
D25	Point of Entry	708.1.1	Point of Entry reflected on documentation does not match the parameters given for the test file.
D26	Tray Size	708.1.2c(6)	Reported tray size incorrectly or reported non-numeric tray size.
D27	Pallet Piece /Rate Summary	708.1.2e - Format and Content	Did not provide a summary at end of last physical pallet to a logical presort destination that reflects total pieces claimed at each rate to that destination must also report total number of pieces and total weight on each pallet.
D28	M940 5% Threshold Summary	708.1.2d(5) - 5% Threshold Standard	Did not provide the required summary of pieces for ZIP Codes having a Carrier Route Indicator code of B or D in the City State file that were placed with carrier route pieces under the 5% threshold rule
D29	Supporting Documentation	707.23.08.04 & 245.06.10.04 - Saturation Density	Did not provide documentation supporting Carrier Route Saturation rate (WS) assignment.
D30	Incorrect Optional Endorsement Line	708.07.02.01 - Presort Identification	Submitted incorrect information within the first line at the top of the address block or label.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
D31	Incorrect OEL Zip Code	708.07.02.05 - OEL ZIP Code	"Submitted the OEL's with the incorrect ZIP Code's. ADC, AADC, and mixed AADC OELs must include the 3-digit ZIP Code prefix or 5-digit ZIP Code of the destination facility according to the labeling list."
D33	Container Numbering Problem	708.01.02c6 - Format & Content	"Vendor did not indicate container number, or did not use the six space field properly (ex: number was left-justified instead of right-justified)."
D34	Saturation Rate Mail	245.6.10.4; 707.23.8.4; 345.6.10.4; 445.6.7.4	"Claimed saturation rate mail but did not satisfy the 90% residential/75% total delivery requirement. This could happen due to vendor using wrong epoch/delivery stats file data, or by not checking the delivery stats file at all."
D35	High Density Rate Mail	245.6.10.2; 445.6.7.2; 707.23.8.2	Claimed High Density rate for carrier route mail but did not meet the 125 piece minimum to a carrier route to qualify for the rate.
D36	Container Type	708	"Submitted container level types (ex: S=sacks, E=EMM) that consist of codes other than those given or submitted the wrong container type for the test that was processed. "
D37	Bundle Sortation Level	708.01.07.03 - Sortation Level	Submitted records with incorrect bundle sortation level codes according to the table given.
D38	Zone Assignment for Periodicals	708.01.02c9 - Format & Content	Submitted records with incorrect zone assignments for Periodical mailings.
D39	Zone Abbreviations	708.01.07.03 - Zone Abbreviations	Submitted records with invalid zone abbreviations according to the table displayed in the DMM.
D40	Destination Entry	446.02.01; 707.17.07.03 - Destination Entry	Submitted records with incorrect destination codes given by PAVE for Standard Mail and Periodical mailings.
D41	Pieces Ineligible for In-County Rates	707.11.03.02 - In-County Rates	Claiming In-County rates for ineligible pieces
D42	Container Sortation Level	708.01.04 - Sortation Level	Submitted records with incorrect container sortation levels according to the table provided.
D43	Not Qualified for In-County Rates	707	Claimed In-County discount but test file does not meet parameters of being < 10,000 pieces in volume or having more than 50% of addresses within same county.
D44	In-County Rates Not Claimed	707	Vendor supports in-county rates but did not claim this discount on eligible pieces.
D45	SCF Zone Assignment	465.01.03e; 235.01.03h; 707.18.03r	Vendor did not assign SCF Zone to eligible pieces within the mailing.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
D46	Not Eligible for Destination Entry Discount	707.28.01.02; 446.02.01	Pieces claimed at Destination Entry rates (I.e. DADC, DSCF, etc) are not eligible for those rates based on the entry point of the mailing
D47	In-County Rates Not Claimed	707.11.03.02	In-County rates were not claimed for eligible pieces. In-county rates must be assigned for all eligible pieces in the test file before certification can be granted.
D48	Incorrect Piece Id Range	Pub. 401 6-1.3 - Format & Content	The listing of the unique id numbers includes the first and last piece id's in each batch.
D49	Batch Postage Incorrect	705.02.02.02 - Postage	The manifest must list batch ranges, postage amounts and cumulative amounts.
D50	Cumulative Postage Incorrect	705.02.02.02 - Postage	The manifest must list batch ranges, postage amounts and cumulative amounts.
D51	Keyline Not Reported	Pub. 401 6-1.1	Each mailpiece has a unique identification number printed within a keyline.
D52	Batch Manifest Format	Pub. 401 6-1.3	The unique id numbers are not printed individually on the manifest. Instead, the mailing is divided into batches of mailpieces with consecutive identification numbers. The listing includes the id numbers for the first and last pieces in each batch, the total postage charges for each batch, and the total number of pieces in each batch.
D53	Keyline Format	Pub. 401 6-2.1.a-e	Each mailpiece must have a properly formatted keyline. The keyline must contain: a. Consecutive id number; b. Weight increment; c. Two-letter abbreviation for the qualified rate category; d. Total postage paid (based on weight increment and rate category); e. Codes for internal use.
D54	Incorrect Postage Assigned to a Piece	604	Incorrect Postage assigned to a piece
D55	Required Rate Summary Information Not Provided	708.01.02e	A rate summary report is a required element at the end of the documentation.
D56	Consolidated Postage Summary Report	708.1.2e	Report provides incorrect postage totals
D57	Pallet Destination Missing	705.08.10.01	Pallet destination information is missing from the test file.
D58	Postage Payment Method Wrong or Blank on MLOCR test	604	The postge payment method listed on the file was incorrect or blank.
D59	Required Rate Summary Information Incomplete	708.01.02e	A rate summary report is a required element at the end of the documentation and it must be complete.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
D60	Failure to Complete Cover Sheet or Job Setup Report	708.01.01	Failed to either complete the cover sheet or job setup report completely
D61	Incorrect format for USPS Summary ZIP Destination Report	Example Provided	The USPS Summary ZIP Destination Report for MLOCR has formatting errors (example columns missing, labeled wrong, heading incorrect)
D62	Incorrect format for USPS Customer Mail Report	Example Provided	The USPS Customer Mail Report for MLOCR has formatting errors (example: columns missing, labeled wrong, heading incorrect)
D63	Incorrect format for USPS Postage Summary	Example Provided	The USPS Postage Summary for MLOCR has formatting errors (example: columns missing, labeled wrong, heading incorrect...)
D64	Manifest Header Format	Pub. 401, 6-5.1.a	The heading on the first page of the manifest must include the mailer's name and address.
D65	Manifest Header Format	Pub. 401, 6-5.1.b	The heading of the first page of the manifest must include the date of mailing.
D66	Manifest Header Format	Pub. 401, 6-5.1.c	The heading on the first page of the manifest must include the origin post office (office where postage is paid, including ZIP Code).
D67	Manifest Header Format	Pub. 401, 6-5.1.d	The heading on the first page of the manifest must include the permit imprint number.
D68	Manifest Header Format	Pub. 401, 6-5.1.e	The heading on the first page of the manifest must include class(es) of mail.
D69	Manifest HeaderFormat	Pub. 401, 6-5.1.f	The heading on the first page of the manifest must include the manifest sequence number.
D70	Manifest Header Format	Pub. 401, 6-5.1.g	The heading on the first page of the manifest must include the processing category.
D71	Manifest Header Format	Pub. 401, 6-5.1.h	The heading on the first page of the manifest must include the product name and version number of MAC-certified software.
D72	Manifest Body Format	Pub. 401, 6-5.2	The manifest must include the id numbers for the first and last pieces in each batch and the total number of pieces in each batch.
D73	Manifest Body Format	Pub. 401, 6-5.2.a	The manifest must list the mailpieces in consecutive id numeric order with no breaks in number sequence.
D74	Manifest Body Format	Pub. 401, 6-5.2.b	The manifest must list the batches consecutively by ZIP Code, in presort order if required, for that particular type of mailing.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
D75	Manifest Body Format	Pub. 401, 6-5.2.c	The manifest must list the total postage for each batch and cumulative postage totals.
D76	Manifest Body Format	Pub. 401, 6-5.2.e.1	The manifest must list the total number of pieces in each batch (when automation rates are claimed).
D77	Manifest Body Format	Pub. 401, 6-5.2.e.2	The manifest must list the subtotals for each presort level in the mailing. (Letters: carrier route, 5-digit, 3-digit, AADC, and mixed AADC.)
D78	Manifest Footer Format	Pub. 401, 6-5.3. a	The footer of the manifest must show individual page totals for pieces, weight and/or postage, and fees.
D79	Manifest Footer Format	Pub. 401, 6-5.2.b	The footer of the manifest must show cumulative page totals if the manifest does not include a cumulative postage column for piece rate mailings.
D80	Manifest Summary	Pub. 401, 6-5.4.b	The summary must include all information necessary to complete a postage statement.
E01	Unable to Process	708	Due to discrepancies in the vendor's file format that they returned the electronic file can not be processed for grading. Corrections and a retest are necessary.
E02	Piece Weight	Test Parameters	"Submitted the weight of each piece incorrectly in pounds. The first two numbers in this field represent whole pounds, while the last four represent decimals of a pound. "
E03	Piece Length	Test Parameters	"Submitted the length of each mailpiece incorrectly in inches. The first three numbers in this field represent whole inches, while the last four represent decimals of an inch."
E04	Piece Width	Test Parameters	"Submitted the piece width incorrectly for each piece in inches. The first two numbers in this field represent whole inches, while the last four represent decimals of an inch."
E05	Piece Thickness	Test Parameters	"Submitted the piece thickness incorrectly for each piece in inches. The first two numbers in this field represent whole inches, while the last four represent decimals of an inch."
E06	Year, Month, & Day Processed File	708.03.03.01 - Update Standards	"Submitted a date that PAVE considers is invalid. According to the DMM, new product releases must be included in address matching systems no later than 45 days after the release date. "
E07	Mailstream Split	Test Parameters	"Submitted records indicating an incorrect mailstream code. I.E., displayed an "A" for automation, when in fact, the record is non-automation. "

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
E08	Multiple Container Sortation Levels	708.01.02	"Vendor changed the reported sortation level for the container in midstream, and prior to filling the container and moving onto another container. "
E09	Pieces not for Container Destination	4354.3; 707.21.1.2; 345.4.2; 335.4.3; 245.4.3;	Pieces within container not going to the same Destination ZIP Code indicated in Line 1 of the container label.
E10	Pieces not for Group/Bundle Destination	707.18.2a; 345.1.2a; 335.1.2a; 245.1.2a; 235.1.2a;	Pieces within group/bundle have ZIP Codes that are not compatible with the indicated Group/Bundle Destination and/or Sortation Level.
E14	Bundle Numbering Problem	Universal File Format	"Vendor did not indicate bundle number, or did not use the six space field properly (ex: number was left-justified instead of right-justified)."
E15	No Header Record	Universal File Format	First record in the returned test file is not a header as required by the provisions for electronic test review. Test file cannot be processed.
E16	Incorrect Entry Point	Test Parameters	Header record for the returned electronic file does not reflect the correct point of entry. Test file cannot be processed
E17	Incorrect Epoch Date	Universal File Format	Submitted electronic file with incorrect epoch date in the header record. Test file was not processed.
E18	Bad Destination - Barcode Numeric Line	708.6.3.2 - Printed Human Readable Lines	Returned file with an incorrect destination ZIP Code which would result in a bad destination reflected in the Barcode Numeric Line.
E19	Bad CIN Verbiage	708.6.1.3; 708.6.1.4 (& exhibit) - Content Line	Returned records with bad CIN verbiage which would result in an incorrect Line 2 being reflected on the hardcopy tray or sack label.
E20	Invalid Bundle Sortation Level	708.1.4	Submitted records reflecting a bundle ID number without providing a corresponding bundle sortation level.
E21	Primary Split Code Not Found in Test Deck	Test Parameters	The Primary split code assigned to this test file was not included in the test file returned by the vendor. The test file cannot be processed by the applicable grading routine.
E22	No Carrier Route sortation found	235.6.6; 245.6.1; 345.6.1; 445.6.1; 707.13	Carrier Route containers have not been prepared. This is a test that requires preparation of a Carrier Route sortation. Grading has been aborted.
E23	Checksum Error	708	Test Deck Checksum Error. Grading Program Aborted. Developer changed some portion of the PAVE-supplied data in either the Header Record or in one or more Name/Address Records in the Test Deck. The PAVE-supplied data is used as control data and should never be modified.
E25	Claimed Rate Not Supported	233.1; 333.1; 343.1; 433.1; 443.1; 707.1	This supports footnotes "K" & "L". If a developer claims to support HD or WS rates but did not claim them.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
E26	6 Piece Bundle Claimed but not Supported	Test Parameters	This supports footnote "S". Claimed to support 6 piece bundles but did not create them.
E27	Claimed Sortation Not Created	Test Parameters	Developer claims to support sortation containers, but did not make any. Footnotes covered are "B", "C", "D", "H", "I", "J", and "M"
E28	Developer Combined Incompatible Mailsplits	Test Parameters	Developer combined incompatible mailsplits in the sme test deck. This is a fatal preprocessing error, and should be caught in chktest.
E29	Incorrect Container/Tray Line 1 Label Answer	435.4.3; 707.21.1.2; 345.4.2; 335.4.3; 245.4.3;	Information provided for Container Destination (Line 1) does not match destination information provided by appropriate DMM Labeling List
E30	Incorrect Piece Id Range	Pub. 401 6-1.3 - Format & Content	The listing of the unique id numbers includes the first and last piece id's in each batch.
E31	Batch Postage Incorrect	705.02.02.02 - Postage	The manifest must list batch ranges, postage amounts and cumulative amounts.
E32	Cumulative Postage Incorrect	705.02.02.02 - Postage	The manifest must list batch ranges, postage amounts and cumulative amounts.
E33	Keyline Not Reported	Pub. 401 6-1.1 - Format & Content	Each mailpiece has a unique identification number printed within a keyline.
E34	Keyline Format Incorrect	Pub. 401 6-2.1 - Format & Content	Each mailpiece must have a properly formatted keyline.
E36	Did Not Make Required Group	235.6.8; 245.7.7	"Did not make required group."
E37	Incorrect Group Destination	708.1	"Submitted the package destination ZIP code incorrectly. This package destination ZIP code is the 3 or 5-digit ZIP code destination for these records from the appropriate DMM Module L labeling list or mailpiece address, depending upon the sortation level assigned."
E38	Group Sortation Level	708.1.4 - Preparation Standards	"Pieces placed in a group with an invalid or incorrect sortation level based on group preparation instructions for the applicable presort category."
E39	Pieces in Same Container not Contiguous	708.1c5	Pieces in test file that have been assigned the same container number are not being reported together as one continuous group in the returned test deck.
E40	Incorrect Processing Code	708.6.2.4 - Barcode	Assigned an incorrect processing code for the type of rates claimed in the container
L01	Incorrect Label List Look-up	DMM 300, APPENDICIES, Labeling List	"Used the incorrect labeling list for the presort category submitted. I. E., used L-004 ADC, instead of using L-801 AADC."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
L02	Outdated Labeling List	DMM 300, APPENDICIES, Labeling List	Using outdated labeling lists.
L03	Destination ZIP Code - Bundle or Container	DMM 300, APPENDICIES, Labeling List	"Submitted the destination ZIP Code incorrectly. The destination ZIP Code is the three or five-digit ZIP Code destination for these records from the appropriate DMM Module L labeling list or mailpiece address, depending upon the sortation level assigned. "
P01	Format Error	707.17.1; 444.3.1; 344.4.1; 334.4.1; 244.4.1;	"The facsimile of the Postage Statement submitted does not follow the requirements set forth in the DMM. The facsimile submitted must be a computer-generated of a USPS form, printed in the same format as, and includes all the information required by, the USPS form. "
P02	Incorrect Rates	233.1; 243.1; 333.1; 343.1; 433.1; 443.1; 707.1	The Postage Statement facsimile consisted of outdated rates on the USPS Form.
P03	Outdated Version	434.3.7; 707.17.4.2; 444.3.7; 344.4.8; 234.4.8;	The Postage Statement facsimile consisted of an outdated version of the PS Form.
P04	Misspellings	234.4.9; 244.4.9; 334.4.9; 244.4.9; 707.17.4.3	The facsimile submitted consisted of misspelling of words on the postage statement.
P05	Certification Clause	434.3.8; 444.3.8; 707.17.4.3; 234.4.9	The submitted facsimile "certification section" does not reflect the current wording for the appropriate PS Form.
P06	Re-Submission of Errors	234.4.9; 244.4.9; 334.4.9; 434.3.8; 707.17.4.3	The re-submitted facsimile consisted of the same discrepancies identified and previously explained to the software developer.
P07	Incomplete PS Form	234.4.9; 344.4.9; 444.3.8; 707.17.4.3	The vendor only presented a portion of the form or only one page.
P08	False Facsimile	234.4.9; 344.4.9; 444.3.8; 707.17.4.3	The software developer submitted a photocopy of a original USPS Form and requesting a postage statement facsimile on the vendors certified listing.
P09	Does Not State Facsimile	234.4.9; 344.4.9; 444.3.8; 707.17.4.3	The submitted facsimile does not reflect the wording to indicate "facsimile" at the bottom of the PS Form
P10	Different Product or Version # Indicated	234.4.9; 344.4.9; 444.3.8; 707.17.4.3	The facsimile indicates that the facsimile was produced by a different product and/or version number than the product being tested.
P11	Mailing Stats Reported Incorrectly	234.4.9; 344.4.9; 444.3.8; 707.17.4.3	"The facsimile indicates the wrong mailing stats for the mailpieces, i.e. wrong DMM prep info, or wrong processing category, or wrong # of containers etc."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
P12	Destination Entry Discount	243.1; 707.1	"The vendor indicated that the product supports the destination entry discount option, but failed to process the mail for these discounts, despite being requested for this info in the corresponding test."
P13	Verbiage Omissions or Problems	234.4.9; 344.4.9; 444.3.8; 707.17.4.3	The facsimile has omitted parts of verbiage or stated incorrect verbiage in sections other than the "certification clause".
P14	No PS Form # Reported	234.4.9; 344.4.9; 444.3.8; 707.17.4.3	The facsimile omitted the official PS Form # on the postage statement.
P15	Error in computation of postage	233.1; 243.1; 333.1; 343.1; 433.1; 443.1; 707.1	There was an error in either the addition or multiplication of postage amount.
S01	Origin 3-digit/scheme Trays Not Created	235.3.6; 707.20.1.6; 245.3.6	"The software did not create all required origin 3-digits tray(s) on the USPS qualification report. After all required trays are prepared, a 3-digit tray must be prepared to contain any remaining mail for each 3-digit (or 3-digit/scheme) area served by the SCF serving the post office where the mail is verified. In all cases, only one less-than-full tray may be prepared for each 3-digit (3-digit/scheme) area."
S02	Origin 3-digit/SCF Sacks Not Created	335.3.5; 345.3.7; 707.20.1.6	"The software did not create all required origin 3-digits sack(s)/tub(s) on the USPS qualification report. After all required sacks/tubs are prepared, a 3-digit sack must be prepared to contain any remaining mail for each 3-digit area served by the SCF serving the post office where the mail is verified. In all cases, only one less-than-full sack may be prepared for each 3-digit area."
S03	Origin 3-digit/scheme Trays Created Incorrectly	345.1.4o; 707.18.4q	"The required origin 3-digits tray(s) on the USPS qualification report listed these tray(s) incorrectly. The software did not create a SEPARATE tray (regardless of quantity) for each 3-digit/scheme area served by the SCF post office where the mail is verified. I.E., created one tray consisting of all 3-digit Zip Codes, instead of creating separate trays. However, in packaged based mailings when there are insufficient number of pieces to prepare a legal package, the pieces are not placed in an origin tray but will drop to a more appropriate sortation level."
S04	Origin 3-digit/SCF Sacks Created Incorrectly	245.1.4g; 707.18.4q; 235.1.4g;	"The required origin 3-digits sack(s) on the USPS qualification report listed these sack(s) incorrectly. If more than one 3-digit ZIP Code area is served, as indicated in L-005, a SEPARATE sack must be prepared for each 3-digit. I.E., created one sack consisting of all 3-digit Zip Codes, instead of creating separate sacks or created a 3-digit sack with less than the minimum of one 10 piece package."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
S05	Rates Incorrect for Origin 3-digit or SCF Tray/Sacks	233.1; 243.1; 333.1; 343.1; 433.1; 443.1; 707.1	"Claiming incorrect rates of the mailpieces in the origin 3-digit containers, due to the sortation, rate eligibility, or the quantity. I.E., Correctly created a one foot tray of 149 pieces but did not meet the minimum quantity requirement (150)for the rate claimed (claimed at 3-digit rate - should be basic),"
S06	Sequence of Tray Preparation	245.3.3c; 235.3.3c; 707.20.2c	"Each tray prepared must be filled before filling the next tray, with the contents in multiple trays relatively balanced. When preparing full trays, mailers must fill all possible full 2-foot trays first; if there is mail remaining for the presort destination, mailers must use a combination of 1-foot and 2-foot trays that results in the fewest total number of trays for that presort level."
S07	Overflow Trays Not Allowed	235.5.4.2; 245.5.4.2	"Created overflow trays for a particular presort category that does not allow overflows in accordance to the appropriate presort requirements defined in the DMM. Reference appropriate DMM section M130, M610, M620, M810, M200."
S08	Underfilled Tray Not Allowed	235.5.4.2; 245.5.4.2; 335.5.5; 707.22.5	"Created underfilled trays for a particular presort category that does not allow underfilled in accordance to the appropriate presort requirements defined in the DMM. Reference appropriate DMM section M130, M610, M620, M810, M200."
S09	Overflow Flat Trays Not Allowed	335.05.05	Created overflow flat trays for a First Class flats presort category that allows only full flat trays.
S10	Underfilled Flat Trays Not Allowed	335.05.05	Created underfilled flat trays for a First Class flats presort category that allows only full flat trays.
S11	Overflow Tray Allowed But not Created	335.06.05	"Where overflows are permitted, the software did not create the one overflow tray allowed per destination. Reference appropriate DMM section M130, M610, M620, M810, M820, M200."
S12	Less Than Full Trays Allowed But not Created	235.6.8; 345.5.4; 245.6.7; 335.6.6; 707.22.5;	"Where less-than-full trays are permitted, the software did not create a less-than-full tray. A tray is considered less-than-full when no minimum is required or standards do not limit full tray preparation even though a full tray was not previously prepared for that destination. Reference appropriate DMM section M130, M610, M620, M810, M200."
S13	2-1-1 Shuffle	235.3.3e; 245.3.3e; 707.20.2e	"The software did not properly tray letter mail. For automation rate and non-automation rate upgradable mailings where packaging is not required, mail remaining after filling all possible two foot trays, must be prepared in a full one foot tray before being packaged in a less-than-full one foot tray. (This rule only applies if a less-than-full tray is permitted by the standards for the rate claimed)."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
S14	2-2 Shuffle	235.3.3e; 245.3.3e; 707.20.2e	"The software did not properly tray letter mail. For mailings where packaging is required, mail remaining after filling all possible two foot trays, must be prepared in a less-than-full two foot tray if it exceeds the capacity of a one foot tray. (This rule only applies if a less-than-full tray is permitted by the standards for the rate claimed)."
S15	150 Piece Minimum for Automation Letter Tray	235.6.8; 245.7.7; 707.24.2.1	"The software did not create trays for mailpieces of 150 pieces or more in total for a destination, where applicable, according to the standards of the presort and the rate claimed."
S16	Full Trays Only	235.5.3.2; 245.5.4.2; 335.5.5; 335.6.5.3	"The software did not fill these trays to at least the minimum pieces allowed, where applicable according to the standards for the presort and the rate claimed. Reference appropriate DMM section M130, M610, M620, M810, M200."
S17	Optional 5-digit Scheme Tray	707.18.3d; 245.1.3c; 235.1.3c	"Created the optional scheme trays, but consisted of incorrect 5-digit ZIP Code destinations not processed by the USPS as a single scheme, as shown in the City State file."
S18	Required 3-digit Scheme Trays	707.18.3a; 235.1.3c; 245.1.3c	"Created the required scheme trays, but consisted of incorrect 3-digit ZIP Code prefixes not processed by the USPS as a single scheme, as shown in L-003, or created scheme tray did not report it as 3dgs."
S19	Non- Qualified Pieces ECR	365.01.03; 345.01.03i; 707.18.03l	"Created containers that included non-carrier route pieces in Enhanced Carrier Route mailings, or invalid auto carrier route pieces in automation rate letter mailings, or processed auto carrier route for flats.. "
S20	Incorrect 2-Foot Tray Dimensions	707.20.01.02a	"The software did not use the correct dimensions for two-foot trays according to the DMM for letters. The appropriate measurements are defined as 21" long, by 10" wide (inside bottom) by 4-5/8" high. "
S21	Incorrect 1-Foot Tray Dimensions	707.20.01.02b	"The software did not use the correct dimensions for one-foot trays according to the DMM for letters. The appropriate measurements are defined as 10-1/4" long, by 10" wide (inside bottom) by 4-5/8" high. "
S22	Incorrect EMM Tray Dimensions	707.20.01.02c	"The software did not use the correct dimensions for two-foot trays according to the DMM for letters. The appropriate measurements are defined as 21-3/4" long, by 11-1/2" wide (inside bottom) by 6-1/8" high. "
S23	Incorrect Flat Tray (Tubs) Dimensions	707.20.01.02b; 335.03.03b	"The software did not use the correct dimensions according to DMM for flat (tubs) trays. The appropriate measurements are defined as 14-3/4" long, (inside bottom) by 10-3/4" wide. The height is 8" to bottom of handhold, 11-1/4" to top of the tray."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
S24	Incorrect Sack (weight) Preparation	435.3.3; 707.20.3.2; 345.3.2; 445.3.2	The software exceeded the maximum weight of the sack and its content according to the DMM. The appropriate (maximum) weight of the sack and contents must not exceed 70 pounds.
S25	Incorrect (minimum) Package Preparation	235.2; 245.2; 335.2; 345.2; 435.2; 445.2; 707.19	"Created packages that consist of less than the minimum amount allowed according to the standards set forth in the DMM. Reference appropriate DMM section M130, M610, M620, M820, M200."
S26	Incorrect (maximum) Package Preparation	235.02.03; 245.02.03; 707.19.04	Created packages that exceed the maximum amount allowed according to the standards set forth in the DMM. NOTE: The maximum thickness for letter size packages is 6", maximum for walk-sequence letters is 4", and maximum weight for flat pkgs is 20 lbs.
S27	Residuals	345.01.03r; 707.18.03v	"The total number of pieces claimed as residuals (basic) is not equivalent to the total number of non-working pieces expected to be returned in the test file. The test file did not included elements justifiable in the address, for the software to process these mailpieces at a presort rate. "
S28	Exceeds Max. Amount for Containers	707.20.3.1; 235.3.2; 245.3.2; 335.3.3; 345.3.3;	"Because of incorrect parameters used in the setup, the software created containers that exceeded the maximum amount allowed according to the specifications listed in the DMM. I. E., 500 pieces maximum fit in a two foot tray, software calculated 575."
S29	75% Full Containers	707.20.1.2b; 335.3.3a; 335.3.3b	"Because of incorrect parameters used in the setup, the software created "full" containers with less than 75% according to the specifications listed in the DMM. I. E., 375 pieces is 75% of a physically full two foot tray, software calculated 350."
S30	Firm Bundle/Piece Count Discrepancy	707.22.03	The software created a firm bundle claimed as one piece but did not include sufficient number of other pieces to qualify as a bundle of 6pcs.
S31	Incorrect Number of Returned Records in Test File	708.2.1.2	The test file submitted did not report or return all the possible test records or the number of records returned exceeded the original number of records that were provided.
S32	Required Containers Not Made	235.5.3.2; 235.5.4.2; 235.6.8; 245.5.4.2; 245.5.5.	"Depending on the presort prepared for the test file, the software did not create all the required containers, for reasons other than M033.2.1.e. I.E., the software did not to create required containers, when there were enough pieces to create a container."
S33	Bundles on Wrong Pallets	705.08.09.01	The software created pallet that contains bundles not belonging to the pallet 's assigned destination.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
S34	Required Pallets Not Made	705.08.05.02	"The software did not sort the pallets to the finest depth of sort. A pallet must be created when there are 500 pounds of Periodicals or Standard Mail (A) packages, sacks, or six layers of Periodicals or Standard Mail (A) letter trays."
S35	Incorrect Pallet Minimum	705.08.05.03	"The software submitted a pallet at less than the minimum weight allowed (250 pounds) of Periodicals or Standard Mail (A) packages, and sacks. "
S36	Incorrect Pallet Maximum	705.08.05.05	"The software allowed for the maximum weight per pallet (mail and pallet) to exceed 2,200 pounds. "
S37	Insufficient Volume for Presort	233.3.1; 243.3.1; 333.3.1; 343.3.1	Processed these test files with less than the required amount of pieces required for a presorted mailing. The statement submitted from the software does not indicate the user must prepare the mailing as a single-piece mailing.
S38	Eligible Presort Not Accomplished	243.7.1; 243.5.1; 343.5.1; 343.7.1; 443.5.1	Although this file does not meet the minimum volume for a presorted mailing, it is eligible for Standard Mail sortation based on the total weight of the combined mailpieces.
S39	Re-Submission Errors	708	"Received the re-submission (second or subsequent attempt) of a hardcopy documentation review, revealing the previous discrepancies were not FIXED or completed. "
S40	Incorrect Set-Up	708.1	"The software did not sort the test file according to the parameters given in the test parameters. (I.E., incorrect origin, container quantities, DMM sortation, etc.)."
S41	Created Multiple Less Than Full Trays to Same Destination	335.3.4; 245.3.3; 235.3.3	"Anytime a less-than-full container is allowed to a destination, ONLY one is allowed (ex: in the mixed level) and it must be the last container reported. You must fill a container before beginning the next container, therefore you may not have more than one less-than-full to a destination."
S42	Required Bundles not made	445.1.4; 707.18.4; 435.1.4; 345.1.4; 335.1.4;	The software did not create or report all the required bundles that were expected in the test file.
S43	Re-test Necessary	708	"A re-test of this test file is necessary, due to discrepancies that occurred in this and/or other test files. "
S44	Retest is Not Necessary	708	"Retest is not necessary, due to discrepancies encountered on test files consisting of identical errors submitted with the other test files. I.E., the software created the San Juan PR containers incorrectly in several test files, but only need to re-take one test file, in order to prove their software is fixed."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
S45	Pallets - Sortation Level	705.8.10	The vendor made a pallet with an invalid sortation level. (ex: made an ASF pallet but did not claim the DBMC discount - therefore the pallet should be a BMC pallet)
S46	Sacks - Less Than Full	Quick Service Guide	The vendor made sacks with less than 125 pcs and less than 15lbs.
S47	Incorrect Volume For Container	Quick Service Guide	Vendor placed incorrect volume of mail in the container. Ex: Placed 50 pcs in a 2ft tray - when a 1ft tray should have been used.
S48	Incorrect Optional CR3 Containers	Quick Service Guide	Vendor created CR3 containers with carrier route packages for only one 5-digit. Must have carrier route packages to at least two 5-digits of the same 3-digit.
S50	Pieces Placed at Wrong Sortation Level	Quick Service Guide	Pieces placed in containers at an incorrect sortation level (either lower or higher than allowed by class of mail being sorted).
S51	Splitting Mail to Same Destination	607	Splitting mail destined to same ZIP Code into multiple containers for no apparent reason.
S52	Did not use EMM trays when required	345.03.04c	Size of mail pieces in test file requires the use of EMM trays but standard MM trays were utilized.
S53	Merged Containers Prepared with Ineligible Pieces	445.1.4; 707.18.4; 435.1.4; 235.1.4; 345.1.4	Prepared merged containers with pieces identified with a 'B' or 'D' in the City-State file.
S54	Ineligible for Machineable Sortation	101; 201	Processed test file as upgradeable mail when weight of piece was ineligible for upgradeable letter.
S55	Did Not Merge All Eligible Bundles	705	Did not place qualifying 5-digit bundles for ZIP Code destinations identified by CRI of B/D in the City State File onto previously prepared Carrier Route or Merged pallets.
S56	Bundles Contain Mixed Rate Pieces	607	Prepared bundles containing mailpieces that are claimed at different rates on associated documentation
S57	Not Carrier Route Mail	445.1.3a; 245.1.3a; 235.1.3a; 345.1.3a; 707.18.3b	Processed the mail in carrier route trays because CR#'s were provided - but either NO LOT or WS was provided by PAVE and we expected these pieces to not be processed as CR... or.. the carrier route is no longer valid due to AMS changes.
S58	Not Eligible for Auto Carrier Route Rate	DMM 300 appendicies, Labeling List	Processed mail as Auto Carrier Route but the Delivery Stats file indicates a "N" auto facility. This mail is not eligible for the auto Carrier Route (CB) rate.
S59	Not Eligible for Automation Rate Mail	100	Vendor included pieces for auto rate that were not given a +4 code.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
S60	Not Eligible for FCM Presort Rates	233.4.1; 333.4.1	FCM - Processed mailpieces for First Class Mail rates when total qualifying pieces are less than 500 pieces.
S61	Not Eligible for STD Presort Rates	Quick Service Guide	STD - Processed less than 200 pcs/50 lbs of Standard Mail without a minimum qualifying mailing
S62	Sequencing of Unmatched Pieces	245.6.9.2; 345.6.9.2; 445.6.6.2; 707.23.7.2	Unmatched address pieces in a Carrier Route mailing must be sequenced (ascending numeric) by primary address within street name or by ascending ZIP+4 code.
S63	No Carrier Route Sequencing Utilized	245; 345; 445	Vendor processed mail for Carrier Route sortation but did not put mail into Line of Travel (LOT) sequence.
S64	Created Bundles When Not Allowed	708	Vendor created bundles when packages are not allowed.
S65	Compression Factor	707.20.1.2; 235.3.2; 245.3.2; 335.3.3; 345.3.3	"Submitted the compression factor incorrectly to override the number of pieces per container. This is set by dividing the length of the tray by the thickness of each mailpiece. The first digit in this field is the integer of the compression factor, while the last three are the decimal portion of the value."
S66	Incorrect Bundle Destination	335; 345	Submitted the bundle destination ZIP Code incorrectly. This bundle destination ZIP Code is the 3 or 5-digit ZIP Code destination for these records from the appropriate DMM Module L labeling list or mailpiece address, depending upon the sortation level assigned.
S67	Not Eligible for STD ECR Rates	243.06.06.02	Mailing did not meet 200 piece minimum to qualify for a Standard Mail ECR sortation.
S68	Unmatched Addresses	245.6.9.2; 345.6.9.2; 445.6.6.2; 707.23.7.2	Pieces with unmatched LOT numbers are not placed behind the respective carrier route matched-address pieces.
S69	Incorrect Bundle Sortation Level	Quick Service Guide	Pieces placed in a bundle with an invalid or incorrect sortation level based on bundle preparation instructions for the applicable presort category.
S70	Multiple Co-Pkgs to Same Destination	235; 245; 335; 345	If using the co-packaging option, there can be only one package prepared to any single destination that contains both automation and presorted rate pieces.
S71	Not in Walk Sequence Sortation	707.13.2.2; 445.6.6.5; 245.6.9.5; 345.6.9.5	Pieces in container are not in Walk Sequence but are claimed at either Saturation or High Density rate.
S72	Exceed 5% Threshold	City State File	Prepared 'merged' pallets with packages of 'B/D' ZIP codes that exceed the 5% threshold limit allowable under an M940 sortation.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
S73	Did Not Merge All Possible Pieces	City State File	Pieces eligible for a merged sortation (with an 'A' or 'C' coded ZIP Code) were found at a different sortation level.
S74	Incorrect Sortation Level	Quick Service Guide	Pieces in a CR5S container belong to a 5DGS that is identified with an A/C ZIP Code and should have been placed in a 'merged' sortation container.
S75	Multiple Less-Than-Full Sacks to Same Destination	Quick Service Guide	Prepared more than one 'less-than-full' sack to same presort destination.
S76	FIRM Bundle Preparation	707	Did not prepare all possible FIRM bundles in the test file. This is necessary if developer is seeking certification for FIRM bundle preparation.
S77	Proper Level Wrong Group	708	The mail piece is in the correct level of sortation however it was placed in the wrong Group. Such as in a Mixed AADC and place in the wrong group.
S78	Multiple 1-ft Trays to Same Destination	707.20.02; 245.3.3; 235.3.3	Mail must be prepared using as few trays as possible and mailer should never have more than one 1-ft tray to any given destination.
S79	Incorrect minimum weight in Bundle on Pallets	Quick Service Guide	Bundle size is required to be a minimum of 10 pieces or 10 pounds.
S80	150 Piece Minimum for Standard 5dg/3dg Trays	245.05.04.02; 245.05.05.02	Mail placed at 5-digit and 3-digit sortation levels that do not meet eligibility requirement of 150 piece minimum to the 3-digit area
S81	Created 3DG Pallets of No Value	DMM 300. appendicies. Labeling List	3-Digit Pallets are not allowed for those ZIPs coded with an 'N' in Labeling List L002A
S82	Bundles/Groups not Correctly Labeled	235; 245; 335; 345; 707	Pieces are in a scheme container package/group information reflects an incorrect destination ZIP Code.
S83	Grouping Not Required or Permitted	235.6.4; 245.7.4; 707.24.1.5	Created separate groups within CRD or 5DG trays and each group within a tray shares the same presort destination as the tray.
S84	Co-bundling Not Performed	705.11.3.1f	Vendor used co-packaging at various points during mail sortation, but did not co-package all pieces whenever possible.
S85	ZIP Code not in Scheme Label List	DMM 300, appendicies, Label List	A schemed container was created holding a ZIP Code that is not reflected in the corresponding Label List or AIS file
S86	Reallocation Not Performed	705	Vendor failed to reallocate pieces from a finer level to save either an SCF or BMC pallet, whichever is applicable for the test file.
S87	FCM Flat Tray Not Filled to Capacity	335.1.4b; 335.3.4	Once a tray has been prepared to a presort destination, trays must be filled with additional available pieces up to the reasonable capacity of the tray.

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
T01	Extraneous Information	707.21.1.5; 445.4.7; 435.4.7; 345.4.6; 335.4.7	"The software printed extraneous information, which is not permitted on the destination (line 1) or the contents line (line 2). It is recommended that this information is placed away from the required lines, subject to the condition specified in the DMM. "
T02	Abbreviations	435.4.6; 707.21.1.6; 445.4.6; 235.4.6; 345.4.5;	"The software printed incorrect abbreviations. The only abbreviations allowed are those printed in the City State File or in Publication 65, National Five-Digit ZIP Code and Post Office Directory. These abbreviations are allowed on the destination (line 1), and the mailers information (line 3) lines. "
T03	Physical Sack Labels	345.4.7.1; 707.21.2.3; 435.4.2; 445.4.2	"The sack labels submitted did not meet the physical specifications stipulated in the DMM. This error includes color, weight, height, and length."
T04	Physical Tray Labels	245.4.2; 707.21.2.2; 345.4.8.1; 235.4.2; 335.4.1	"The sack labels submitted did not meet the physical specifications stipulated in the DMM. This error includes color, weight, height, and length."
T05	Auto-Compatible Sack Labels	345.04.07.02; 707.21.02.04	"The labels submitted for the sack labels used on mailings of automation-compatible flats did not meet the "print" specifications, outlined in the DMM. "
T06	Pallet Labels	705.8.6	"The labels submitted for pallets did not meet the required specifications outlined in the DMM. This error includes color, lettering, or the contents."
T07	Bad Line 1 - Tray/Sack Barcoded Label	708.06.01.02	"The barcoded tray or sack labels submitted did not meet the destination line specifications described in the DMM. This error includes the placement, destination information, or the military destinations."
T08	Bad Line 2 - Tray/Sack Barcoded Label	708.06.01.03	The barcoded tray or sack labels submitted did not use the correct CIN verbiage described in the DMM.
T09	Bad Line 3 - Tray/Sack Barcoded Label	708.06.01.05	The barcoded tray or sack labels submitted did not meet the origin line specifications described in the DMM. This line must display the city and state of the entry post office or the mailer's name and the city and state of the mailer's location.
T10	Incorrect CIN Code	708.06.01.04	Submitted the incorrect content identifier code for the claimed level of tray or sack for the applicable mailing according to DMM.
T11	Barcode Numeric Line	708.06.02.04b	The information submitted on the barcode numeric line does not reflect the numeric representation in the barcode as specified in the DMM.
T12	Human Readable Lines - Print Specifications	235; 245; 335; 345; 707	"All human readable lines must be printed in uppercase letters, with no run-on letters or numerals according to the DMM."

<i>Error Code</i>	<i>Error Name</i>	<i>DMM Citation</i>	<i>Error Verbiage</i>
T13	Zebra Code Errors	708.06.02.03	"The zebra code serves as a visual indication that a tray contains barcoded automation rate mail and is a requirement for auto letters. (Ex: vendor created Automation mail tray labels without zebra codes, or placed zebra codes on non-auto mail, or the zebra dimensions are not within spec) "
T14	Barcode Placement/Quiet Zone problems	708.06.02.04	Barcoded container tags do not have the proper placement of the barcode or proper spacing for quiet zones.
T15	Incorrect Processing Code	708.06.02.04b3	Submitted records that consisted of an incorrect processing code. The 2-digit processing code "01" is used for automation and upgradeable letters and automation First-Class flats. The processing code "07" is used for all other trayed mail. NO processing code should be used on sack labels.
T16	Barcode Printing Errors	708.06.02.04	"Created barcoded labels that do not meet the scanability requirements of the DMM or do not pass the barcode scanner machine analysis. Errors may include height, x dimensions, wide to narrow bar ratio, and print tolerance."
T17	Non-Barcoded Labels - Incorrect Line 1	435.4.3; 707.21.1.2; 345.4.2; 335.4.3; 245.4.3;	"The tray or sack labels submitted did not meet the destination line specifications described in the DMM. This error includes the placement, destination information, or the military destinations."
T18	Non-Barcoded Labels - Incorrect Line 2	435.4.4; 707.21.1.3; 445.4.4; 345.4.3	The tray or sack labels submitted did not meet the content line specifications described in the DMM. "This line must show the class and processing category of the mail in the sack or tray and other information as specified by standards."
T19	Non-Barcoded Labels - Incorrect Line 3	445.4.5; 707.21.1.4; 235.4.5; 345.4.4; 335.4.5	The barcoded sack labels submitted did not meet the origin line specifications described in the DMM. This line must display the city and state of the entry post office or the mailer's name and the city and state of the mailer's location.
T20	Pallet Label - Incorrect Line 1	705.08.06.04	Pallet pacards submitted with an incorrect Line 1 based on DMM specifications.
